Location: Vashi, Navi Mumbai

LinkedIn: linkedin.com/in/nayan-tupe-488664277

GitHub: github.com/NayanTupe

Portfolio: Google Drive - Project Presentations, Certificates & Resume Proof

TECH STACK

ML/Data

Python Machine Learning
Data Science EDA
Feature Engineering Random Forest
KMeans scikit-learn pandas
NumPy

Backend/API

FastAPI REST APIs
Swagger/OpenAPI Pydantic
Uvicorn Render

Frontend/Tools

React Vite JavaScript HTML
CSS Git GitHub Vercel
SQL

Visualization

Tableau Power BI Matplotlib
Excel Dashboards Reports

EDUCATION

Bachelor of Science (B.Sc.)

Oriental College Of Technology
2022 - 2025

CERTIFICATIONS

Artificial Intelligence Diploma

Boston Institute Of Analytics | May 2025 - Nov 2025

Data Science Diploma

Boston Institute Of Analytics | Mar 2025 - Nov 2025

TRAINING

Spinnaker Analytics Pvt. Ltd. - 2 month
AI/Data Science internship with exposure to
data collection, cleaning, preprocessing,
visualization, reporting and ML tasks.

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience across Data Science, Machine Learning, Data Analysis and Software Development. Built end-to-end projects using Python, FastAPI, scikit-learn, React/Vite dashboards, REST APIs, deployment, Git/GitHub workflows and business reporting systems.

CORE STRENGTHS

ML & Analytics

Prediction models, EDA,
feature engineering,...

Full-Stack Delivery

FastAPI backend, React UI,
production deployment

Dashboards

Business reports, KPI charts,
export/PDF workflows

PROFESSIONAL EXPERIENCE

Technology Intern

Mar 2026 - Present

Z-Aksys Solutions, Vashi Navi Mumbai

- Developed and maintained 15+ responsive web pages using Git/GitHub and clean frontend workflow.
- Performed QA testing, identified/logged 20+ bugs and supported post-deployment fixes.
- Managed website content updates, publishing workflows and digital campaign support using Mailchimp.
- Built practical exposure to production websites, version control, testing and client-ready delivery.

Logistics Clearing & Documentation Executive

Mar 2024 - Nov 2025

Ace Clearing And Forwarding, Navi Mumbai

- Handled import/export customs clearance documents, shipping records and compliance workflows.
- Worked on ODEX document submission, coordination and accurate process tracking.
- Built strong documentation discipline, operational accuracy and business process understanding.

TARGET ROLES

Data Scientist Intern | ML Engineer Intern | Data Analyst | Python Developer | Frontend Developer

End-to-end ML backend, React dashboard, live deployment, API testing and presentation proof.

RetailIQ - AI Powered E-commerce Intelligence Platform

AI SaaS / Full-Stack ML / Analytics Dashboard

Jun 2026 - Present

Live Dashboard: [retailiq-dashboard-frontend.vercel.app](#) Backend API: [retailiq-api-yzso.onrender.com](#)
Frontend GitHub: [github.com/NayanTupe/retailiq-dashboard...](#) Backend GitHub: [github.com/NayanTupe/retailiq-ecommerc...](#)
Project PPT/PDF: [drive.google.com/drive/folders/1I5Pc85te...](#)

- Built production-ready FastAPI backend with REST APIs for churn prediction, summary KPIs, customer segments and churn analytics.
- Integrated Random Forest churn model, KMeans customer segmentation, processed CSV datasets and API-driven React/Vite dashboard.
- Added Swagger/OpenAPI testing proof, live Render backend deployment and Vercel frontend deployment.
- Designed dashboard pages for executive KPIs, churn intelligence, clustering insights and real-time prediction workflow.

FastAPI React/Vite Random Forest KMeans
Swagger Render Vercel GitHub

High-Impact Related Projects

ML + Analytics Dashboard

Apr 2026 - Present

TradingMLModel - ML Backtesting & Paper Trading

GitHub: [github.com/NayanTupe/TradingMLModel-.git](#)
Presentation: [drive.google.com/drive/folders/1I5Pc85te8...](#)

- Built Python backend for equity/options data, technical indicators and ML predictions.
- Created backtesting engine with stop-loss, target, brokerage, trade logs and performance charts.
- Developed React/Vite dashboard for trade summaries and paper trading signals.

Business Analytics Dashboard

Jun 2026 - Present

KKC Spices - ERP Reports Dashboard

Live: [nayantupe.github.io/KKC-Final-Report-](#)
GitHub: [github.com/NayanTupe/KKC-Final-Report-.git](#)
Presentation: [drive.google.com/drive/folders/1I5Pc85te8...](#)

- Developed ERP-style reporting dashboard for material loss, contracts, machines, stock, customers and suppliers.
- Implemented global calendar year/product category filters with reset filter functionality.
- Added export and print/save PDF features for report sharing and business review.

Machine Learning Project

Aug 2025 - Sep 2025

Credit Score Classification

GitHub: [github.com/NayanTupe/CREDIT-SCORE-CLASSIFICATI...](#)
Presentation: [drive.google.com/drive/folders/1I5Pc85te8...](#)

- Built credit score classification model with Random Forest and XGBoost achieving 94% accuracy.
- Processed 50K+ customer records and optimized feature set from 25 to 12.
- Reduced classification time by 40% using feature engineering and model optimization.

Machine Learning / EDA Project

Jul 2025 - Aug 2025

Hotel Reservation Cancellations

GitHub: [github.com/NayanTupe/PREDICTING-HOTEL-RESERVAT...](#)
Presentation: [drive.google.com/drive/folders/1I5Pc85te8...](#)

- Developed ML models to predict hotel booking cancellations using historical booking data.
- Performed data preprocessing, feature engineering and exploratory data analysis.
- Evaluated model performance to support revenue planning and business decisions.

Additional Projects, Portfolio Proof & Recruiter Quick Match

Clean project proof links for resume screening, HR sharing and interview discussion.

React/Vite Business Platform Jun 2026 - Present

SMOS - Sales Management Operating System

GitHub: github.com/NayanTupe/SMOS---Sales-Management-O...

Presentation: drive.google.com/drive/folders/1I5Pc85te8...

- Built responsive modern marketing and sales platform with React and Vite, deployed on Vercel.
- Created 7+ modular components including Hero, About, Capabilities, Impact and BookDemo.
- Integrated EmailJS for lead capture and demo booking with organized CSS architecture.

Full-Stack Tracking / Analytics App 2026

Moments - Response & Analytics App

Live: moments-lc4dnhdpp-nayantupe699-5450s-projects.ve...

GitHub: github.com/NayanTupe/Moments.git

Presentation: drive.google.com/drive/folders/1I5Pc85te8...

- Built responsive React/Vite app with routed pages, interactive Yes/No flow and Framer Motion animations.
- Added visit count, localStorage and Firebase action/click tracking for user analytics.
- Created analytics dashboard with Express and MongoDB APIs to store and view click data.

RetailIQ Live Dashboard: retailiq-dashboard-frontend.vercel.app

RetailIQ Backend API: retailiq-api-yzso.onrender.com

Recruiter Quick Match

Data Science / ML

Python, scikit-learn, feature engineering, model evaluation, churn prediction, segmentation and EDA.

Backend / API

FastAPI, REST endpoints, Pydantic schemas, Swagger/OpenAPI testing, Render deployment.

Frontend / Dashboard

React, Vite, charts, responsive UI, business dashboards, Vercel deployment.

Business Reporting

ERP reports, KPI dashboards, export/PDF workflows and client-ready documentation.

Target Roles: Data Scientist Intern | ML Engineer Intern | Data Analyst | Python Developer | Frontend Developer

SPINNAKER ANALYTICS LLC

EXPERIENCE LETTER

To Whom It May Concern

This letter is to certify that **Nayan Mahendra Tupe** has successfully completed an internship as a "**Data Science Intern**" at Spinnaker Analytics LLC. The details of the internship are as follows:

- **Start Date:** July 21, 2025
- **End Date:** September 21, 2025
- **Duration:** 2 months
- **Role:** Data Science Intern

Throughout the internship, **Nayan Mahendra Tupe** demonstrated a high level of proficiency and commitment. The contributions to the team were greatly valued. We extend best wishes for continued success in future professional endeavors.

During the internship, **Nayan Mahendra Tupe** worked on following key projects:

- **Predicting Hotel Reservation Cancellations**

Develop robust machine learning models to accurately predict hotel reservation cancellations. By utilizing these models, the company aims to improve revenue management, optimize resource allocation, and potentially implement targeted retention strategies.

- **Credit Score Classification**

Develop a robust machine learning model to accurately predict credit scores based on various financial and personal attributes. This model will automate the assessment of creditworthiness, enabling more efficient and data-driven decision-making in credit-related processes.
